Democratic Values

*Fairness, Freedom,
Equality, Responsibility,
Integrity, Security*

For President: Barack Obama on *Economic Prosperity*

"I believe that America's free market has been the engine of America's great progress. It's created a prosperity that is the envy of the world. It's led to a standard of living unmatched in history. From CEOs to shareholders, from financiers to factory workers, we all have a stake in each other's success because the more Americans prosper, the more America prospers."

When elected, Obama will provide a tax cuts for working families, eliminate income taxes for seniors making less than \$50,000, fight for fair trade, invest in a clean energy economy and create 5 million new green jobs, and provide tax relief for small businesses and start up companies. www.BarackObama.com

Congressman Joe Sestak on *Health Security*

Sestak for Congress Leadership with a Vision

"Upon being elected to Congress in 2006, one of the first priorities I set was to address healthcare reform. For our District, I fought to serve on two Congressional Committees that deal with health issues, from which I have been able to craft legislation and be a leading advocate for health care reform. Among the successes have been expanding health care for seniors, cutting costs for Medicare prescription drugs, increasing funding for veteran's health care, expanding funding for cancer research and treatment, providing \$29 million for treatment of autism, and supporting legislation to prevent insurance companies from denying coverage to people with pre-existing conditions." www.SestakForCongress.com

State Rep. Daylin Leach for State Senator on *Education Equality*

★
DAYLIN LEACH
FOR STATE SENATE

"There is perhaps no issue that is more important to our State and region than providing quality education to every child. As a member of the House Education Committee in Harrisburg, I introduced legislation that successfully increased the amount of money available for tutoring programs and raised the eligible age from 9th grade to 12th grade. I was proud to strongly support Governor Rendell's efforts to provide universal access to pre-school for all of Pennsylvania's children. I also fought for full-day kindergarten and smaller class sizes K-3, as well as full funding of special education. As your State Senator I will continue to enable Haverford Township Schools and all public schools to have the funding and resources they need to give all our children the education they deserve."

State Representative Greg Vitali on *Environmental Responsibility*

Vote Greg
Vitali
STATE REPRESENTATIVE

Greg Vitali
for
State Representative

"I have been instrumental in Haverford Township's acquisition of the 209 acre Haverford State Hospital site. Conservation of open space and development of this site for use of Haverford Township residents is one of my proudest achievements. I secured state funding for mandated environmental studies at the former hospital site as well as grant dollars for Haverford Township to develop its own climate change action plan."

Dan Siegel for 4th Ward Commissioner on *Integrity*

"As a long time Haverford Township resident I am running for 4th Ward commissioner in the special election on Nov. 4th 2008. My goals are to restore integrity and accountability to the Republican-dominated Board of Commissioners, to encourage businesses to open and thrive in the Township, to make the Township more responsive to the average citizen, to end the favoritism that has plagued the Township for decades, and to speak out on issues that have long been ignored. In the past, the Commissioners have been reluctant to take the bold steps necessary to move the Township forward and to assure that every citizen is treated equally.

It's time for Haverford Township to be the world-class community it aspires to be. I am a leader in numerous organizations and will bring the same drive and commitment to my duties as a Commissioner. "
